HYDRATING MASK TREATMENT

Intensely moisturizes dry skin and re-hydrates skin after peels and microdermabrasion treatments

KEY INGREDIENTS:

- Hyaluronic Acid
- Tea Tree Oil
- Lavender Extract

KEY BENEFITS:

- Calms, moisturizes and soothes dry and irritated skin; great for rosacea skin
- Provides a finished glow to skin and brings it back to a normal pH level after procedures
- Enriched with natural skin soothers tea tree oil and lavender extract
- Re-hydrates skin after procedures that remove the outer layers

WHY IT WORKS:

- Natural botanical provide a soothing antiseptic effect and condition skin
- Helps draw in and retain moisture in the skin

CLINICAL USE:

Apply after microdermabrasion treatments or chemical peels (except TCA).

HOW TO USE:

Prime skin with Essential Lipids and/or Vitamin C Serum over the entire face, neck and chest area. Apply mask over products, avoiding the eye area, and allow to dry for 5-10 minutes. Using a soft cloth and lukewarm to cool water, gently remove.

COMPANION PRODUCTS:

- Vitamin C Serum
- Hyaluronic Cream
- GF-DNA Serum

SKIN TYPES: Dry, Combination, Oily, Sensitive

SULFUR MASK TREATMENT

Helps clear clogged pores, absorb excess oil and superficially peel skin for a fresh, matte appearance

KEY INGREDIENTS:

- Colloidal Sulfur
- Tea Tree Oil
- Kaolin

KEY BENEFITS:

- Absorbs surface oil and dead skin cell debris to clean clogged pores and reduce a shiny, oily appearance
- Balances moisture and calms for healthy looking skin
- No strong odor

WHY IT WORKS:

- Superficially peeling effect from sulfur reveals healthy, new skin
- Contains tea tree oil and eucalyptus for an astringent effect and a fresh scent

CLINICAL USE:

Use following acne treatment or post extractions.

HOW TO USE:

Prime the skin with Vitamin C Serum over the entire face, neck and chest area. Apply mask over serum, avoiding the eye area, and allow to dry for 5-10 minutes. Using a soft cloth and lukewarm to cool water, gently remove all traces of the mask.

COMPANION PRODUCTS:

- Vitamin C Serum, Hyaluronic Moisturizer
- Salicylic Cleanser

SKIN TYPES: Dry, Combination, Oily, Problematic

VITAMIN C MASK

Designed to calm and soothe skin after peels or microdermabrasion and to improve aging skin

KEY INGREDIENTS:

- Tetrahexyldecyl Ascorbate (Vitamin C Ester)
- Tea Tree Oil
- Sweet Orange Oil

KEY BENEFITS:

- Re-hydrates skin after procedures that remove the outer layers
- Calms and soothes dry irritated skin
- Helps fade the appearance of age/sun spots
- Provides a strong antioxidant effect to neutralize free radicals caused by sun exposure

WHY IT WORKS:

- Vitamin C, an antioxidant, has been shown to stimulate collagen production for firmer skin and to produce a more consistent skin tone for correcting pigmentation issues
- Contains a stable form of vitamin C that easily penetrates skin

CLINICAL USE:

Apply after microdermabrasion treatments or chemical peels (except TCA).

HOW TO USE:

Once or twice per week, apply moderately over the entire face, neck and chest areas. Avoid the eye area. Let set for 5-10 minutes. Remove with a lukewarm to cool wet towel.

COMPANION PRODUCTS:

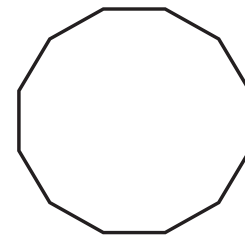

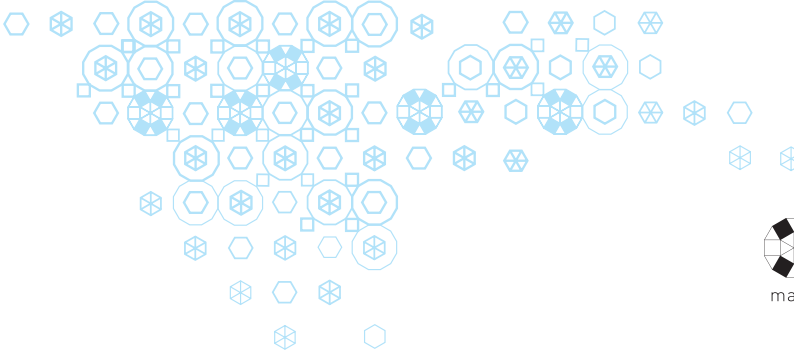

- Vitamin C Serum
- Hyaluronic Cream
- GF-DNA Serum

SKIN TYPES: Combination, Oily, Sensitive, Dry, Problematic

**GF-HYDROGEL
MOISTURIZING MASK**

Super hydrating gel mask designed to calm skin and rebalance the moisture barrier

KEY INGREDIENTS:

- Chondrus Crispus (Red Algae) Powder
- Artemisia Princeps Leaf Extract
- Epidermal Growth Factor
- Green Tea Extract
- Dipalmitoyl Hydroxproline

KEY BENEFITS:

- Natural polymer hydrogel with seaweed soothes skin after procedures
- Restores hydration to dry or dehydrated skin
- Helps reduce redness

WHY IT WORKS:

- Contains growth factor proteins and natural ingredients that are rich in antioxidants, omega-3 and -9, calming agents and antibacterial agents
- Mask comes in two parts, allowing for a perfect fit for every face
- Hydrogel technology inhibits the evaporation of moisture while delivering maximum absorption of mask solution

CLINICAL USE:

Use after any non-ablative treatment, such as microdermabrasion, chemical peel, LED or IPL. Open pouch and apply mask to skin. Leave on 15-20

minutes and peel away (gel design will not adhere to skin, leaving it calm and hydrated). Do not rinse. Moisturize and protect skin after removal.

HOME USE:

Use mask 1-2 times weekly to keep skin from feeling dry. Open pouch and apply mask to skin. Leave on 15-20 minutes and peel away. Do not rinse. Moisturize and apply SPF if during daytime.

COMPANION PRODUCTS:

- GF-DNA Serum
- GF-Eye Gel
- Essential Lipids
- Silicone Spray

SKIN TYPES: Combination, Oily, Sensitive, Dry, Problematic
