Penthouse Suite
8929 Wilshire Blvd, Beverly Hills, CA 90211

Jonathan Sykes, MD

Rachel Moler, RN

Join renowned thought leader & educator and double board certified plastic surgeon Dr. Jonathan Sykes and esteemed educator Rachel Moler, RN!

This exclusive hands-on experience offers a rare opportunity to elevate your expertise in aesthetic medicine. Gain in-depth insights into facial structures and vascular anatomy essential for safe and effective injection practices within aesthetic medicine.

- **Extensive Curriculum:** Explore topics such as facial anatomy, nerve and vessel considerations, the aging process, patient selection, threads, and anesthesia techniques.
- **Risk Management:** Address potential complications and learn effective management strategies to ensure patient safety.
- **Comprehensive Training:** Gain in-depth knowledge and practical skills through lectures and hands-on demonstrations on various facial areas.
- **Advanced Anatomy Exploration:** Engage in hands-on cadaver dissections to deepen your understanding of facial anatomy, alongside the latest applied injection anatomy techniques in aesthetics
- **Practical Workshop:** Participate in a Live Hands-On PDO Thread & Filler Workshop for practical application, elevating your skills as an injector provider to achieve optimal esthetic outcomes for your patients.
- **Supporting Materials:** Access pre and post-course materials, including an online course and a detailed manual, along with editable forms for patient consent and record-keeping.
- **Personalized Learning Environment:** Limited attendance ensures a personalized and impactful learning environment, allowing for focused and tailored instruction.
